

SCOTT HARGROVE, B.Sc., P.E.

EDUCATION:

BS, Civil Engineering, University of Colorado, Boulder, CO (College of Engineering), 2005

REGISTRATIONS AND CERTIFICATIONS:

Mr. Hargrove is a Registered Professional Engineer in CO (#45359).

Mr. Hargrove has completed the CalOES SAP Training

EXPERIENCE:

Structural Engineer, Knott Laboratory, LLC, Centennial, Colorado, November 2019 to current; Structural Project Manager, CTL Thompson, Fort Collins, Colorado, November 2015 to November 2019; Structural Engineer, Tetra Tech, MMI, Inc, Lakewood, Colorado, October 2014 to November 2015; Structural Project Engineer, Resource Engineering Group, Inc, Crested Butte, Colorado, June 2012 to October 2014; Associate Civil Engineer, Tetra Tech EC, Inc, Lakewood, Colorado, April 2008 – May 2011; Project Engineer, dcb Construction Company, Inc, Denver, Colorado, September 2006 to April 2008

FORENSIC ENGINEERING:

Mr. Hargrove has nearly two years of experience as an assistant project manager for commercial construction projects, three years of experience as an assistant/associate civil engineer, and seven years of residential/industrial /commercial structural engineering. Mr. Hargrove's responsibilities have included complete structural engineering for both new construction and remodeled residences, water treatment plant platforms and foundations, design and support services for wind energy projects, a potable water pipeline project, fall protection systems, landfill cleanup and redesign, on-site supervision of final phase of tilt-up commercial construction and finish work, detailed plan review and modification, and various other engineering projects.

Mr. Hargrove's experience with engineering design and project management has given him a unique understanding of construction processes, enabling him to readily identify sources of civil and structural failures. Mr. Hargrove has designed residential structures for new construction, additions and structural repair. At Knott Laboratory, Mr. Hargrove conducts structural evaluations and failure analysis on a wide range of residential and commercial structures, building envelopes, and civil systems. Mr. Hargrove's practical experience enables him to accurately identify a wide variety of structural problems and failures as well as design repairs or improvements as necessary.

ENGINEERING AND DESIGN:

Mr. Hargrove has overseen the construction and design of small wood-framed projects to large steel and wood framed wedding venues.

Example Projects:

- A multitude of repairs to residential and commercial structures as a result of environmental and man-made damages
- A multitude of new build single family residences in the Crested Butte and Fort Collins areas
- A multitude of remodel and addition projects in the Crested Butte and Fort Collins areas
- Black Canyon Event Center in Estes Park, Colorado
- Alarado Business Park in Estes Park, Colorado

MEMBERSHIPS AND PROFESSIONAL AFFILIATIONS:

Mr. Hargrove is a member of SEAC – Structural Engineering Association of Colorado
