Construction Manager, Meritage Homes, Atlanta, GA, 2017  
Assistant Construction Manager, Meritage Homes, Atlanta, GA 2016

### **CONSULTING ENGINEER EXPERIENCE:**

Mr. Beck has over four years of experience in Forensic Engineering. His clientele includes homeowners' associations, property managers, attorneys, contractors and insurance companies. His engineering prowess extends to various project types, including single-family homes, multi-family dwellings, industrial structures, and construction defect investigation. As a Forensic Structural Engineer, he has played a pivotal role on teams consulting on a wide range of projects involving retaining walls, building structures, building envelopes, foundations, and drainage systems in Texas, Georgia, the Carolinas, and Colorado. His experience focuses on forensic evaluation, construction defects and conformance, causation of property damage, material longevity, reconstruction repairs, and post-litigation repairs. Mr. Beck has experience in both non-destructive and destructive testing of both architectural and structural components to assess the locations and extents of environmental and man-made hazards.

### **STRUCTURAL/CIVIL ENGINEERING DESIGN:**

Mr. Beck has experience contributing to design teams for single family homes, a wide range of repairs to residential and commercial structures as a result of environmental and man-made damages, as well as civil grading and drainage project improvements.

### **CONSTRUCTION ADMINISTRATION:**

Mr. Beck spent the first four years of his professional career in residential construction management. During this time, he oversaw the successful completion of hundreds of new home construction projects across Georgia, South Carolina, and Florida. Additionally he lead the renovation of a boutique hotel in Central California. As an engineer, Mr. Beck has observed a broad range of projects for design compliance.

### **MEMBERSHIPS AND PROFESSIONAL AFFILIATIONS:**

SEAO – Structural Engineers Association of Texas  
ASCE – American Society of Civil Engineers  
ICRI – International Concrete Repair Institute
